Our homes at **Down by the Water** are located in one of the most stunning landscapes in North Bangalore.

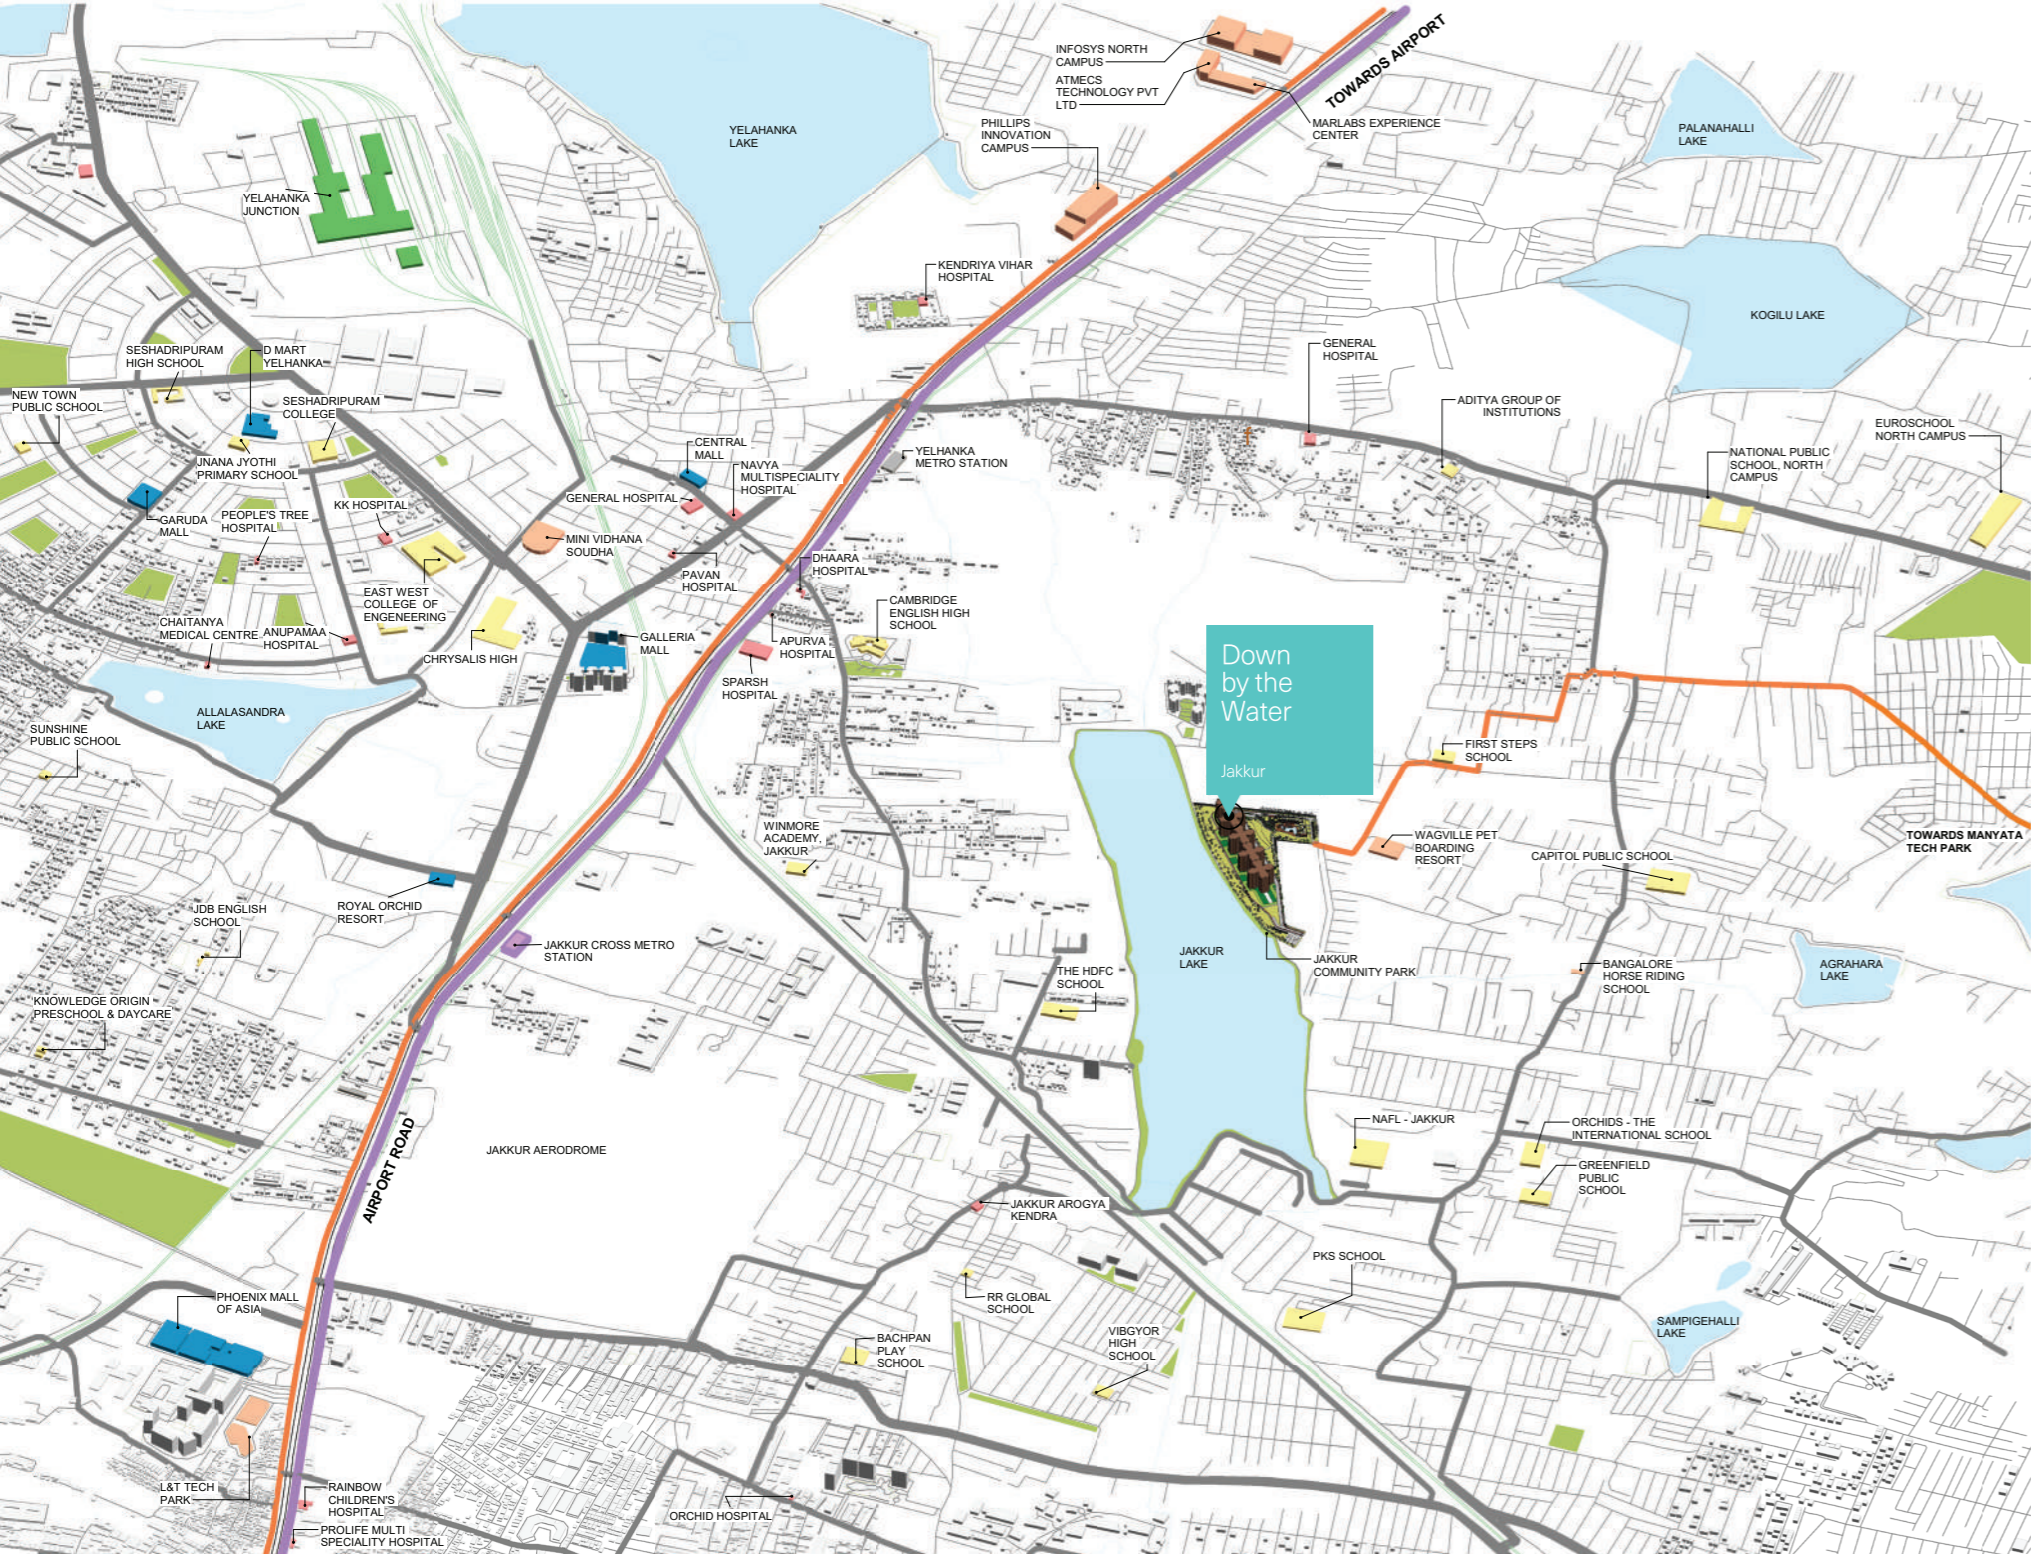

Located adjacent to Jakkur Lake, nature is abundant in the community with mature native trees and hundreds of new ones. These natural features allow our homes to embrace nature just the way we always design them to.

The project includes lake-facing homes with terrace gardens.

With several hundred trees in the property and terrace gardens with every home, we do expect the microclimate within the project to be better than the outside.
